

BEAR CREEK FARMS

**Lets the VIEW in ...
Keeps the
WEATHER out !!**

Owner, Bob Cochran says:

"Our GaleShield Weather Screens do everything you said they would. They reduce the heat of the sun and the force of the wind. Leigh appreciates that we now have full use of the riding surface even while it's raining. Riders and horses stay dry and the footing next to the screened wall doesn't become soaked, providing full arena use. The wind and the sun don't dry the footing to dust as it did before. All of this, and we have our view of the great scenery surrounding the arena. Thanks, GS Products, for a great product."
